HOW A MASK WORKS

Research shows that masks can greatly reduce the chance of spreading COVID-19, especially when approximately 40% of those who have COVID-19 may be asymptomatic. We can only contain the virus and keep Michigan open if everyone stays careful and masks up when they leave home, whether they feel sick or not.

COVID-19 spreads mainly among people who are in close contact.

All of us have droplets in coughs and sneezes that can carry COVID-19 to others.

Coughs spray droplets at least 6 feet. Sneezes travel as far as 27 feet. Droplets also may spread when we talk or raise our voice.

These droplets can land on your face or in your mouth, eyes and nose.

When you wear a mask, it keeps more of your droplets with you.

A mask also adds an extra layer of protection between you and other people's droplets.

MIOSHA State Emphasis Programs

- Proactive Enforcement of MIOSHA Emergency Rules:
 - Offices
 - Manufacturing
 - Construction
- Includes randomly selected inspections of workplaces (in addition to complaints)
- Some Must Haves:
 - Preparedness and Response Plan
 - COVID Coordinator
 - Daily Health Screenings
 - Training
 - Record Keeping
 - Remote Work Policy

Face Coverings in MIOSHA Rules All Workplaces

- Low and Medium Risk Work:
 - 7(4) The employer shall provide non-medical grade face coverings to their employees at no cost to the employee.
 - 7(5) The employer shall require face coverings to be worn when employees cannot consistently maintain 6 feet of separation from other individuals in the workplace and **consider face shields** when employees cannot consistently maintain 3 feet of separation from other individuals in the workplace.
 - 7(6) The employer shall require face coverings in **shared spaces**, including during in-person meetings and in restrooms and hallways.

Rule Specific To Museums

- 9 (3) Retail, libraries, and museums. Retail stores that are open for in-store sales, as well as libraries and museums, must:
 - (a) Create communications material for customers (e.g., signs or pamphlets) to inform them of changes to store practices and to explain the precautions the store is taking to prevent infection.
 - **(b) Require patrons to wear a face covering (unless the patron is unable medically to tolerate a face covering).**
 - (c) Post signs at store entrances instructing customers to wear a face covering when inside the store.
 - (d) Post signs at store entrances informing customers not to enter if they are or have recently been sick.
 - (e) Design spaces and store activities in a manner that encourages employees and customers to maintain 6 feet of distance from one another.
 - (f) Install physical barriers at checkout or other service points that require close interaction, including plexiglass barriers, tape markers, or tables.
 - (g) Establish an enhanced cleaning and sanitizing protocol for high-touch areas like restrooms, credit-card machines, keypads, counters, shopping carts, and other surfaces.

Remote Work

- Remote work Rule:
 - 5(8)-The employer shall create a policy prohibiting in-person work for employees to the extent that their work activities can feasibly be completed remotely.
- MIOSHA will accept a written policy
- Employers are obligated to demonstrate infeasibility of remote work.
- Employers should include in the remote work determination information which covers at least:
 - Which positions/classifications report for in-person work and why they must be physically present in the workplace.
 - Reasons that this work cannot be performed remotely, this must include enough specificity to show this analysis has been performed.
- This written policy may be part of the employer's COVID-19 preparedness and response plan. It does not have to be a stand-alone document.

Quarantine & Isolation

- It is critical that employees showing symptoms or having close contacts are isolated or quarantined as quickly as possible.
- Rule:
 - 6(3) The employer shall physically isolate any employees known or suspected to have COVID-19 from the remainder of the workforce, using measures such as, but not limited to:
 - (a) Not allowing known or suspected cases to report to work.
 - (b) Sending known or suspected cases away from the workplace.
 - (c) Assigning known or suspected cases to work alone at a remote location (for example, their home), as their health allows.
 - Summary of CDC Guidance on Timeline:
 - Quarantine (non-confirmed, no symptoms) 14 days from the date of the last close contact
 - Isolation (symptoms or confirmed with or without symptoms):
 - At least 10 days since symptoms first appeared and
 - At least 24 hours with no fever without fever-reducing medication and
 - Other symptoms of COVID-19 are improving**Loss of taste and smell may persist for weeks or months after recovery and need not delay the end of isolation
- Critical Infrastructure-close contacts
